Gallery Room

Designed to be the ultimate retreat from the home's more public rooms, this space features an update on the traditional men's-club aesthetic.

**The Highlights:** The dramatic wall treatment, in chocolate-brown faux-crocodile, is highlighted by applied panel moulding that's finished in a gold glaze. Continuing the animal theme, the double-pile carpet has a tone-on-tone zebra pattern.

**Designer Tip:** Play with scale. The oversized 19th-century bust of Napoleon gives the room dimension and traditional grandeur.
